can Issues Quoted Higher on London Market.

NOTE—All Market news on this page reflects closing sale prices (unless buy or bid be specified) on Wednesday, February 19. NOTE-All Market news on .

New York, N. Y., Feb. 12.—Despite the sharp deciline in stocks yesterday. London prices for Americans before today's opening were substantially higher. Buil operators in Wall street took advantage of the rise abroad and the indications that the Mexican simution is clearing to bid up prices on the shorts. Persistent selling of certain specialties and renewed bear attacks, however, undermined the market, the decline among the specialties running from ona to four points. When supporting orders checked the downward movement, the market went up gradually again and reached a higher level than at the outset.

Bonds were heavy.
Tuliness and receding prices ensued when the more urgent covering had been completed. Reactions, however, were not extensive and at 1 octock many stocks were quoted a point above vesterday's closing.

Fresh weakness in Chesapeake & Ohio lewered it to 73½ and increased the reactionary movement elsewhere.

Buying of Steel and Reading later had a steadying effect.

The market closed strong. Prices climbed upwards in brisk fushion as the day drew to a close. Steel, Union Pacific and Reading and Lehigh spored gains approximating two points and other important stocks also gave a good account of themselves.

Short covering formed the principal basis for the day's advance.
